б) в области письма – обучать грамотно строить письменную речь; выполнять практические задания по грамматике;

в) в области аудирования – совершенствовать умение слушать аутентичные тексты из различных сфер жизни носителей языка с пониманием общей идеи, с извлечением информации и с детальным пониманием; обучать различать грамматические структуры в звучащих текстах;

г) в области чтения – совершенствовать умение различать и грамотно переводить прочитанные грамматические структуры; читать аутентичные тексты из различных сфер жизни носителей языка с пониманием общей идеи, с извлечением информации и с детальным пониманием.

2) социокультурный компонент предполагает знание и умение принимать во внимание в коммуникативной и профессиональной деятельности страноведческие реалии, национальные традиции, ритуалы, обычаи, принятые образы общения, формулы вежливости;

3) прагматический компонент предусматривает знание и умение применять в коммуникативной и профессиональной деятельности:

Методические рекомендации:

Работа с грамматическим материалом (грамматические и лексико-грамматические упражнения)

При работе с лексико-грамматическим материалом необходимо стремиться не только к узнаванию слова или грамматического оборота, но и к пониманию цели его употребления в данном контексте, функциональной нагрузки, которой данная языковая единица обладает.

Изучаемый материал требует практического применения, прежде всего в виде лексико-грамматических упражнений, которые следует выполнять только после тщательной проработки всего материала. Изучение грамматики нельзя начать «с середины». Каждый новый раздел учебника базируется на изученном прежде материале и усложняет его. Правильность овладения новыми лексико-грамматическими структурами можно проверить при помощи тестов с готовыми «ключами». Однако изучение только грамматики без правильного произношения и знания лексики остается «вещью в себе». Лишь комплексный подход и постепенный переход от простого к сложному может дать требуемый результат.

При подготовке задания по грамматике (выполнение упражнений) сначала следует прочесть текст из раздела (занятия), ознакомиться с грамматическими поурочными комментариями в конце учебника, просмотреть записи, сделанные на занятии, где дается образец выполнения упражнения. При подготовке к тестированию требуется также просмотреть весь лексико-грамматический материал, в том числе домашние письменные упражнения.

Студентам рекомендуется использовать обучающие компьютерные программы, которые дают возможность не только прослушать правильное фонетическое оформление речи, но и выработать навыки использования правильных лексико-грамматических структур при помощи упражнений.

При изучении определённых грамматических явлений английского языка рекомендуется использовать схемы, таблицы из справочников по грамматике, тщательно готовить их для обеспечения прочного усвоения. При построении английского предложения следует располагать слова в строго определённом порядке, учитывая, что порядок слов в повествовательном предложении, вопросительном и отрицательном предложении отличается от порядка слов в русском предложении.

Методические рекомендации:

Основной целью самостоятельной работы является обеспечение условия для успешной профессиональной подготовки специалистов высокой квалификации, обладающих достаточным уровнем сформированности профессиональных знаний и умений. Эвристический потенциал самостоятельной работы заключается в подготовке специалистов, способных профессионально и максимально эффективно достигать поставленных целей. В процессе организации и функционирования самостоятельной работы решаются следующие задачи: обучение эффективным когнитивным умениям; формирование таких личностных качеств как активность и ответственность. Тем не менее, самостоятельная работа не исключает контроля со стороны преподавателя, более того, ее формирование происходит в процессах определения целей, постановки задач и преподавательского контроля.

Что касается организации самостоятельной работы на занятиях по иностранному языку на неязыковом факультете, то основное внимание сосредоточено на формировании у студентов иноязычной коммуникативной компетенции. Это предполагает обеспечение

интеграции студентов в многоязычную профессиональную среду. Следует учитывать, что иноязычная коммуникативная компетенция, в свою очередь, представляет собой совокупность знаний, умений и навыков, достаточных для получения профессиональных знаний и участия в процессах межкультурной коммуникации.

Для формирования адекватной мотивации необходимо: понимание студентами значимости выполняемой работы; активное участие студентов в исследовательской деятельности (проекты, презентации) с привлечением дополнительных источников информации (электронных, печатных). Познавательная самостоятельность студентов реализует следующие эвристические умения: коммуникативные (говорение); когнитивные (поиск и актуализация информации); речемыслительные (анализ, обобщение, интеграция, дифференциация).

Методические рекомендации по организации самостоятельной работы

Формы самостоятельной работы студентов с грамматическим материалом:

- 1) устные грамматические и лексико-грамматические упражнения по определенным темам;
- 2) письменные грамматические и лексико-грамматические упражнения по определенным темам;
- 3) составление карточек по отдельным грамматическим темам (части речи; основные формы правильных и неправильных глаголов и т. д.);
- 4) поиск и перевод определенных грамматических форм, конструкций, явлений в тексте;
- 5) синтаксический анализ и перевод предложений (простых, сложносочиненных, сложноподчиненных, предложений с усложненными синтаксическими конструкциями);
- 6) перевод текстов, содержащих изучаемый грамматический материал.

Для самостоятельной работы над грамматикой необходимо использовать рекомендуемые грамматические справочники и пособия. Повторять следует особо трудные и специфические для данного иностранного языка разделы грамматики.

Для того чтобы повторить один из нужных разделов грамматики, следует прочесть его по грамматическому справочнику, разобраться в объяснении, проанализировать примеры, а затем выполнить упражнения. Все другие виды упражнений, предлагаемые в пособиях, рекомендуется делать письменно. Рекомендуется также делать грамматический анализ отрывков из изучаемых литературных произведений и специальных текстов:

- 1) выбрать несколько предложений из текста, полностью разобрать по частям речи и членам предложения, объяснить все грамматические явления – употребление времен, глаголов, артиклей;
- 2) выбрать из текста предложения с определенным грамматическим явлением.

Как заключительный этап закрепления грамматического явления полезен перевод с русского языка на иностранный.

При изучении определенных грамматических явлений иностранного языка рекомендуется использовать схемы, таблицы из справочников по грамматике и составлять собственные к конкретному материалу, тщательно выполнять устные и письменные упражнения и готовить их к контролю без опоры на письменный вариант, чтобы обеспечить прочное усвоение грамматического материала. Следует уделять внимание порядку слов в предложении.
